DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/7/2008 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles L. Gholz (Reg. No. 26,395) on 9/17/2008.

The application has been amended as follows:

In the claims:

In claim 8, line 2, change "3" to --45--.

In claim 36, line 4, after "45", insert --.--.

In claim 43, line 1, after "consumable", insert --purchase--.

Art Unit: 2625

In claim 44, line 2, change "2" to --3--.

In claim 44, line 3, change "The" to --the--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art of record, namely, Hayward et al. (U.S. Patent No. 6,798,997) discloses a supply ordering apparatus having a status window (see figure 4) which displays an magenta ink level low and an ordering option and replacing option.

The closest prior art of record, namely, Benjamin et al. (U.S. Patent No. 6,113,208) discloses displaying a low ink warning and reorder part number (see figure 5).

However, the closest prior art of record, namely, Hayward et al. (U.S. Patent No. 6,798,997) and/or Benjamin et al. (U.S. Patent No. 6,113,208) do not disclose, teach or suggest, wherein when the remaining amount is not greater than a first threshold being greater than 0, the controller displays on the display a warning to replace the consumable, and when the remaining amount is not greater than a second threshold being greater than the first threshold, the controller displays on the display purchase information for purchasing the consumable, as claimed in independent claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Benjamin et al. (U.S. Patent No. 6,113,208) discloses displaying a low ink warning and reorder part number (see figure 5).
